

Types of Optical Cable Reels

Overview

Fiber optic cable reels come in a variety of designs, each suited to different types of cables and applications. The most common types include wooden reels, steel reels, plastic reels, and custom-built options tailored to specific requirements. They protect cables from damage, tangling, and environmental exposure while allowing smooth unwinding and rewinding during installation. This document is a guideline for the key features, installation, and maintenance practices conducted on this type of machinery. Unlike copper cables, fiber optics use light signals instead of electrical signals, which results in: At Grayle, we offer a wide range of fiber optic reels. These reels are specially engineered to meet the precise needs of fiber optic cables, ensuring their.
