## How to Design a Secure and Resilient Server Room Power Supply

Designing For Resilience  
Ups System Installation  
Modular Ups Systems  
Automatic Transfers  
Battery Backup and Standby Power Generators  
Summary  
It is possible with a relatively small budget to build resilience into a server room power supply design. The final single point of failure to consider is the PDUs to which the critical servers and IT loads are connected. The PDUs should be smart or intelligent PDUs with built-in overload protection in the form of circuit breaker protection and wit See more on [serverroomenvironments.uk](http://serverroomenvironments.uk)
