### Armored Patch Cables Datasheet , FS

The armored patch cables will allow you to protect your critical and essential fiber optic network with a crush-resistant and rodent-resistant jacket. The cable is a perfect solution for installing that require

So, it's time to install or upgrade your network infrastructure. You may have heard about armored fiber optic cables and are wondering what they are, if

[Read More](#)

## **Fiber-optic patch cord**

Armored fiber-optic patch cord uses a flexible protective tube, usually stainless steel, inside the outer jacket as the armor to protect the fiber glass inside. It will not get damaged even if stepped on, and
