

What is a cable splice box

Overview

A splice box (also known as splice distributor) is a housing in which fiber optic cables begin or end. It is one of repairing a cable that is in poor condition, making it longer or diverting cables.

What is a cable splice box

What is a Fiber Optic Pigtail, and What Is It Used For?

High-quality pigtail cables, combined with proper fusion splicing techniques, provide the highest performance for fiber optic cable terminations.
