

Where is the pigtail cable label

Overview

The duplex pigtail fiber optic cables are two fibers and two connectors on the one of termination. Prysmian offers an extensive range of optical pigtails for use in FTTx, telecommunications, data communications and CATV applications. These connectors can be a big help when you need to connect two wires, repair damage, or extend a. Are you looking for high-quality Cable Markers to identify and label your wires and cables?

Look no further than our extensive range, featuring top brands like our own RS PRO Cable Markers, HellermannTyton, Brady, Legrand and 3M. Get the wrong connector type, the wrong polish, or skip proper fusion splicing technique—and you're looking at elevated signal loss, increased back reflection, and a.
