

Where to connect the fiber optic SC patch cord

Overview

SC connector: Connects GBIC modules, its shell is rectangular, and the pin lock is fixed without rotation. When installing, align the key on the connector body with the keyway on the transceiver or adapter. Fiber optic patch cords must be installed correctly to ensure best network performance, reduce signal loss, and protect the sensitive fibers. This guide will help you quickly understand the main types of fiber patch cords and how to choose the right solution for your project – and how ZION can support you with stable quality, flexible customization and global supply.
