

# Which manufacturers produce prefabricated photovoltaic rooftop modules

## Overview

---

This comprehensive guide explores the top 10 global companies—such as First Solar, Onyx Solar, and HIITIO—that are shaping the future of solar-integrated architecture through advanced technology, design innovation, and sustainable construction solutions. Discover the leading Building Integrated Photovoltaic (BIPV) manufacturers of 2026. On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment. By combining active (energy-producing) and inactive parts, you get a uniform roof covering that also serves as a power source for your home. The 10 photovoltaic module producers leading global output face falling prices, fierce competition, and growing manufacturing overcapacity.
