

Which trademark category does cable tray belong to

Overview

Trademark Class 1 is one of the Nice Classification, an international system used to categorize goods and services in the chemical industry for trademark registration purposes. Logging in using the Sign in link in the top right corner helps you avoid errors when the system is handling heavy traffic. It'll also give you access to even more features and enhancements in the future, including options to customize your search experience based on your preferences. There are 45 trademark classes in total, divided into 34 classes for goods and 11 classes for services. Classification of goods and services - Name of the classes (Parts of an article or apparatus are, in general, classified with the actual article or apparatus, except where such parts constitute articles included in other classes). Goods and services always belong to a certain category, also known as the Nice classes.
