# **Which types of cable tray hanging devices are the most useful**

## Overview

---

Discover the main cable tray support types: wall-mounted, ceiling-hung, floor-mounted, and cantilever brackets. Click to explore technical specs and best practices for reliable electrical systems. Unlike conduit systems, cable trays allow cables to be laid in bundles, improving accessibility, heat. Each cable tray type performs a different function and comes in various materials such as aluminum, galvanized steel, and FRP. To avoid the weight hanging or structural collapse, the weight should be supported in a balanced manner with the spacing of support normally 1.
