

Why is fiber optic cable cheap but optical fiber cable expensive

Overview

Multimode optical fiber is usually more expensive than single-mode fiber. SLA (Service Level Agreement) it means the customers of the isp have a agreement that it will work 99. Here's a general pricing reference: These are indicative prices based on standard configurations. And between the different types of fiber cables (drop fiber optic cables, outdoor fiber optic cables, indoor fiber optic cables, special fibre cables, etc. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Installation: Copper's ease of installation also contributes to its lower upfront costs.
