

Will the IP address change when fiber optic cable enters the switch

Overview

The fixed public IP address associated with your fibre leased line is in most cases provided by your internet service provider, which owns certain blocks of addresses. Will my public IP address change?

: r/HomeNetworking HomeNetworking is a place where anyone can ask for help with their home or small office network. And, do or can events such as rebooting your Sonic fiber adapter box/modem ("ONT") or any associated router, cause you to get a new/different IP address, or does the same one always come back again?

For comparison/reference, many (or most/all?

) cable-Internet or traditional ADSL Internet customers. These are assigned for a limited time and may be transferred to another customer. A fiber media converter, also known as a fiber to Ethernet converter, allows you to convert typical copper Ethernet cable (e. This article aims to provide a comprehensive understanding of how network switches are connected to fiber optic cables, the types of fiber optic connectors used, and the configuration processes involved.
