

# **XPS Distribution Box**

## Overview

---

XPS boxes, made from extruded polystyrene (XPS), are widely used in logistics and packaging due to their excellent insulation properties, durability, and lightweight nature. The insulating material keeps the dishes warm for longer, while the attached lid ensures safe. Fully recyclable, with thermal protection and hot-oil resistance — designed for strength, sustainability, and daily foodservice convenience. Ideal for lunch deals, these XPP boxes are durable, microwave-safe, and recyclable. The menu box in the color champagne of the brand "IP Verpackungen" was made of XPS (extruded polystyrene for foam molding).
