

Zade Optical Interface Module

Zade Optical Interface Module

Network interface device

Generically, a NID may also be called a network interface unit (NIU), telephone network interface (TNI), system network interface (SNI), or telephone network

Optical module

Optical modules typically have an electrical interface on the side that connects to the inside of the system and an optical interface on the side that connects to the outside world through a fiber optic

How to Install and Remove Optical Modules Safely

Install optical modules safely with ESD protection, proper handling, and dust control. Follow these steps to avoid damage and ensure network reliability.
